

For Healthcare Workers - Zoom Tip Sheet to Connect to UNMH Patient iPad

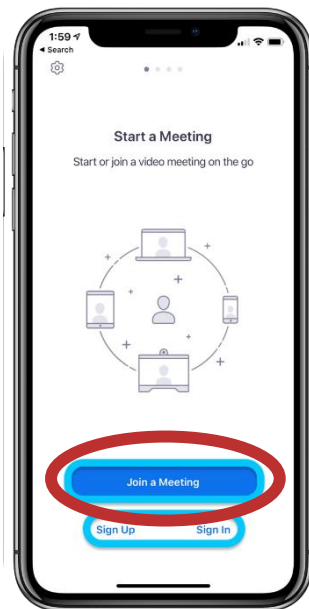

1. If you are using a **computer**, go to <https://zoom.us/join> in a web browser.

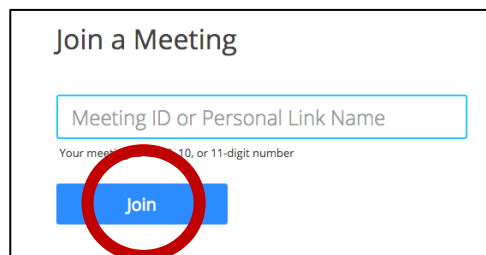

If you are using a **smart phone or tablet**, download the “Zoom Cloud Meetings” **before** the meeting from the App Store (iOS) or Google Play Store (Android). Choose to use both video and audio from your device.

2. Once the app has downloaded onto your device, select “Join a Meeting”.

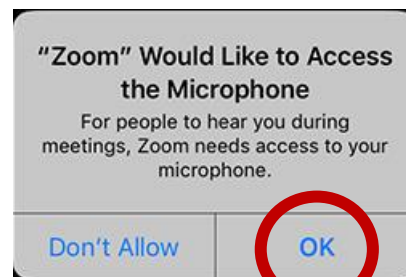

3. Find out which hospital iPad the patient has (the label is on the iPad) and reference the iPad Workflow Diagram to determine your patient’s Meeting ID and Password. Enter the Meeting ID and Password and choose “Join.”

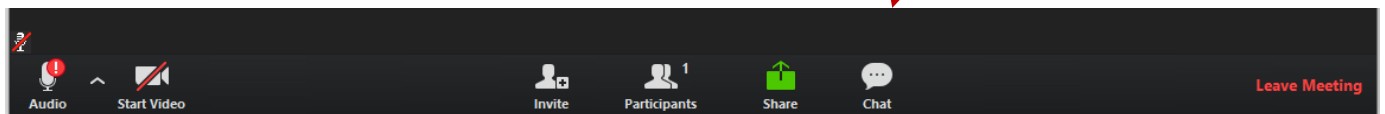

4. Your **computer may need a camera, speaker and microphone connected.** Allow Zoom to access all of this equipment for your video call.

Your **mobile device often includes a camera and microphone.**

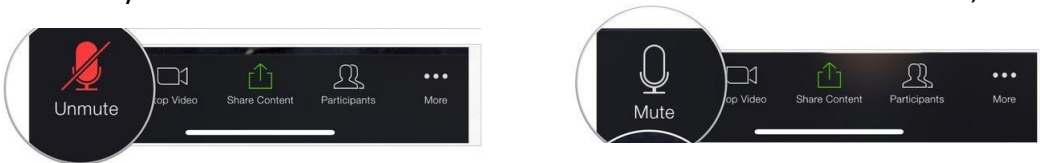

- Allow access to camera, video and microphone.
- Join audio by choosing “Call using Internet Audio.”

Meeting ID appears here

- Control buttons** appear in a black bar along the top or bottom of the screen. If the black bar disappears, tap the screen or click your mouse on the screen and it will reappear.
- Make sure you are not muted. If there is a red line across the “Mute” button, click on it to unmute.

- Make sure your video is not blocked. If there is a red line on the video button, click on the “Start Video” button to unblock.
- To end the meeting, select the “Leave Meeting” button.
On your phone you will see the words “Leave” or “End” in the upper right-hand corner.
