

## New Born Clinic and Lactation Clinic Location

"Newborn Clinic and Lactation Clinic have officially moved to FPC at Tucker in order to ease patients' fears with returning for newborn follow up and hopefully be able to see more patients. Please share this info with anyone in your departments that should know. Their previous phone lines have been routed to their new location in case anyone calls the previous extension. They also have a cell phone with voicemail capability; 306-4859. Please let me know if you have any questions/concerns."
