Hemorrhage requiring transfusion, MTP activated) • Triple I (Intrauterine inflammation, infection or both)* • Diabetes (except GDM) • Cardiac disorders (even if stable) excluding cHTN (ie. History of cardiomyopathy) • Chronic hypertension requiring medications • Substance use disorders, with medication assisted treatment plan (Subutex, methadone) • Hyperthyroidism • Covid-19 positive • 3rd and 4th degree laceration; extensive vaginal laceration*

*May also be admitted to OB Jade if census necessitates.

NEW TIGERCONNECT ROLES:

Obstetrics Topaz: "OB Topaz"

Obstetrics Jade: "OB Jade"

Both roles will auto-populate with intern on service. Mariam Upshaw and Katya Wilson will opt into the OB Jade role when they are working and opt the intern back in when they leave.

Only contact "OB Inpatient Resident" if no one is assigned to the OB Topaz or OB Jade role.
